

RON

Art. no.: 2-493

Description:

Open and dynamic spaces need flexible seating solutions. Like RON for example; a small upholstered pouf/stool that is a must-have in situations where additional seating is needed. The design is inspired by thimbles, and the conical shape with a hollow inside allows for easy stacking and space-saving storage. An elliptical ergonomic cut-out on the top surface allows you to carry the lightweight pouf around easily and move it as needed. The clean and elegant overall appearance blends well with many different spaces like offices, common areas and hotels, but RON will also be a functional and aesthetically pleasing addition to the interior in private homes.

Year of design: 2022

Design: Sascha Sartory

After his studies in product- and industrial design at the University of Applied Science Aachen and University in Wuppertal, Sascha Sartory worked for various design agencies and learned how to combine the latest technologies, trends and materials to create new and innovative design products. Today he is working as an independent designer as well as being co-founder and part of the FORMFUSION Produktdesign team.
